OPEN TO PUBLIC no <p> This is a large box-like structure probably dating from c. 1820. It is, however, very reminiscent of much earlier constructions in New England. It has a rather steeply pitched A-roof which slopes from front to back. The house is four bays wide and 3 deep with an end chimney enclosed on the right end. The door occupies the left front bay and has an overlight and sidelights. The first storey windows on the front are 2/2, but those on the side are the earlier 9/6. All the 2nd storey windows are 6/6. There are two small attic windows in each gable end. The door is now covered by a Victorian porch of Moorish design. </p> <p> Although not well-maintained this house, because of its proportions, could be refurbished and would make a very attractive dwelling. There is a small 1 1/2 storey kitchen wing at the rear. </p>
